For further troubleshooting assistance please select the links located at the bottom of the page.

Step 4.)

You will be given four options to authenticate your account. Technology Services recommends the last option, setting up security questions. To set those up, click "Set them up now" next to where it says "Security Questions are not configured."

To make sure you can reset your password, we need to collect some info so we can verify who you are. We won't use this to spam you - just to keep your account more secure. You'll need to set up at least 1 of the options below.

Step 5.)

Fill out the answers to all 5 questions. The answers you put will be case-sensitive, so please keep that in mind when setting them up. After you are done filling out the answers, click "save answers."
