Preparation

There are several things you should do to prepare for remote work

1. Charge your laptop, tablet, or any battery powered device you use when working remote.
2. Make sure you have a portable battery charger to keep when working remote. If it is difficult to plug and unplug from your office space, obtain a spare charging cable.
3. Verify your Internet access is sufficient to connect to Oakland Schools resources by testing at a time when it is not required to get your work done.
4. Test your internet and VPN connection before you need it.

Connecting Securely

Oakland Schools requires the use of two-factor authentication (2FA) in order to protect access to each user's email account. Oakland Schools staff use the 2FA called DUO Mobile. However, a secure connection is needed to protect the information from a connected device (laptop, phone or tablet). Oakland Schools uses a VPN to secure those connections.

VPN Client

VPN clients are the application installed on your computer that connects virtually connects you to the Oakland Schools network. Oakland Schools Administration Building and Technical Campus staff will use [CheckPoint VPN](#) software for this use. Your Oakland Schools device should already have this software installed, but if you don't have it installed or need assistance with it's use, Head over to the [CheckPoint VPN](#) page for more information.

Accessing your Data

Accessing your Phone Resources

MiTel Conference Center

You can create a conference room with your extension if you're onsite or offsite. Your extension must be setup and whitelisted by the network team to allow this. You will need to create a Service Desk ticket for this request.

Hosting a conference call

- Dial 248-209-2400
- When prompted for your 'Personal ID', input your personal four digit extension, prefixed by the number one.
 - Example: 1 1234
- When prompted to input your 'Access Code' input your four digit extension, prefixed by 010
 - Example: 010 1234
- The MiTel system will then create your personal Conference Room and make it accessible to join.

You must keep the call active in order for the room to be available for outside callers. If you (the host) hangs up, the call will disconnect if no one else is in the room with you.

Joining a conference call

- Dial 248-209-2400
- When prompted for 'Access Code' or 'Personal ID', Press the * key to select 'Access Code'.
- When prompted, input the access code you set up in the hosting section.
 - Example: 010 1234
- Press the # key to confirm after you've input your access code.
- The MiTel system will connect you to the conference room specified.

Voicemail

To access your Oakland Schools Voicemail, perform the following:

- Dial 248-209-2222
- Press ** to access the voicemail menu.
- Dial your four digit personal extension and press the ** key.
- Enter your voicemail PIN.

You will then be directed to your voicemail box as is if you were on site.
